INT-320WIPN

IR Outdoor Intercom Unit With Face Recognition

Designed for outdoor residential setups, the INT-320WIPN is a 2MP Intercom equipped with built-in IR LEDs, microphone, and speaker. Ideal for smaller compounds like offices, private houses, and stores, it seamlessly connects to various MON-TCH7. This facilitates direct calling to specific areas within the compound and enables door opening functionality. Ensuring enhanced security, the INT-320WIPN features a card reader for approved personnel entry and supports the wiegand protocol for communication with access control devices. Going beyond traditional intercoms, it boasts a 3D view capable of detecting and recognizing true faces. This innovative technology allows for independent door opening or triggering alarms based on pre-set face groups, providing an advanced level of security for your property.
