

# See only what matters Introducing M series IP cameras

18.7

### Why choose the M series?

## For customers demanding precision of video events at competitive prices, the TruVision<sup>®</sup> M series IP cameras is the right choice.

With embedded smart object classification, the cameras can filter out false alarms. The available color, lens and form factor options make the M series IP cameras suitable for a wide variety of small and larger applications.

\* The M series is the successor of the S6 IP cameras.

### There are three main reasons to choose the TruVision M series:

- Efficiency: people/vehicle classification significantly reduces the number of reported alarms/events versus traditional cameras, and limits false alarms
- Adaptability: seven form factors, three color options, varifocal and fixed lenses... a total line-up of 33 cameras to satisfy a bigger variety of businesses
- Ease of use: quick install & adjustments possible with the motorized lens, and plugin free browser support

#### **Features**

- Person/vehicle classification
- Up to 8MP/4K resolution
- Fixed and motorized lens options
- Built-in IR on all models

- Variety of form factors
- Plugin-free browser support
- IP67/IK10 on selected models
- Additional white variants and accessories

#### **EFFICIENT**

#### Optimization on different levels

- Target classification significantly reduces the number of reported alarms/events
- False alarm immunity
- Less events, less storage
- Only relevant video alarms/events/storage
- Easy and quick video search for end users (finding relevant video footages)

### ADAPTABLE

#### More options, more flexibility

- Up to 7 different form factors
- Multiple color options
- New white accessories

#### EASY TO USE

#### Easy to install

- Quick adjustment with the motorized zoom/autofocus lens
- Plugin-free browser support

### **Smart object classification**

### Who is it for?

### **Applications**

The TruVision M series is the mid-range level of the camera portfolio and ideal for small to medium businesses, and even high residential.

Competitive in pricing, TruVision M series cameras offer an ample set of features that go beyond the basic cameras seen on the market.

### **Flexible options for different environments**

### Small installations

- Fixed lens models
- Standard IR range
- Small form factors

### Large installations

- Varifocal lens models
- Extended IR coverage
- Small and large models

### Integration

#### Another major reason to choose the TruVision M series

The TruVision M series IP cameras can be fully integrated to the TruVision ecosystem. The recorder, TruVision Navigator and IFS<sup>®</sup> network products completes the full video surveillance network and can all be linked in the UltraSync<sup>™</sup> cloud.

#### Supported hardware & software

- Recorders: supported by TruVision recorders\*
- TruVision Navigator video management software and TVRMobile app: supported in TVRMobile app and from TruVision Navigator 9.1 service pack 1 (SP1) onwards
- Intrusion: the cameras are supported by ATS8600 Advisor Management software through the TruVision recorders
- ONVIF®: listed in the conformant products list on the ONVIF website
- LenelS2 OnGuard® access control system: supported in LenelS2 NVR (LNVR) 7.7 Camera Pack 4.0
- Milestone: validated with Milestone XProtect® video management system
- Plugin-free web browsers: in addition to Microsoft<sup>®</sup> Internet Explorer<sup>®</sup>, the recorders can also be accessed and configured with browsers such as Google Chrome<sup>™</sup>, Firefox<sup>®</sup> and with Apple Safari<sup>®</sup> that don't support ActiveX plugins

\* Supported features may vary depending on recorder features and capabilities.

### **Portfolio positioning**

#### How does M series fit into the TruVision camera portfolio?

Video analytics, image quality, specialty and overall features

Features/Performance

### **Cameras in the TruVision M series**
