

TVK-600

TruVision RS485/IP keypad, 4-axis joystick, 12VDC

Overview

The TVK-600 keypad has been designed to be used with the line of TruVision NVRs, DVRs, PTZ cameras, encoders and decoders. A TVK-600 lets you easily control the monitor outputs of a recorder and a decoder, allows precise PTZ control, and gives you full control of every recorder's user interface using only the keypad.

Full featured

The TVK-600 contains all features to control a TruVision device efficiently.

The keypad can communicate via IP or RS485 with supported recorders and cameras.

The configuration of the keypad is done via a web browser.

Different user modes can be selected via the on-screen menu of the LCD display.

The keypad supports up to 1000 devices via keyboard mode.

Users can navigate through the menu of a recorder and control PTZ cameras via the 4-axis joystick.

Why TVK-600?

The TVK-600 lets you control your video system via one user interface without using a PC.

Applications

The TVK-600 is ideal for guard rooms and monitoring centers.

TVK-600

TruVision RS485/IP keypad, 4-axis joystick, 12VDC

Technical specifications

General

Keyboard / controller type Analog / Serial, IP

Control

Joystick type 4-axis
Buttons Numeric and functional

User interface

Display type 128x64 pixel screen

Interfaces

Connection interface Ethernet, RS-485
Network interface 10 / 100 Mbps self-adaptive Ethernet interface
USB USB 2.0

Electrical

Power supply type 12 VDC
Power supply value 12 V
Power consumption <= 4.5 W

Physical

Physical dimensions 435 x 193 x 110 mm
Net weight 1 kg
Colour Black

Environmental

Operating temperature -10 to +55°C
Relative humidity 10 to 90%

Regulatory

Compliancy CE, RoHS, WEEE

Supported products

Devices TruVision PTZ cameras:
TruVision S1 PTZ cameras (TVP-310x / 110x / 3122 / 1122)
