Product summary

This is the TVK-600 Release Notes with additional information not covered in the user manual. For the latest information on the TVK-600, please visit:

EMEA: <https://firesecurityproducts.com>

Australia: <https://firesecurityproducts.com.au/>

Firmware version 1.2.0

Date of release: 21/6/2024

Bug fixes

- A fix was developed for the issue where an error was shown when IP cameras were selected when a TVR46 was in Keyboard mode
- A fix was developed for the issue where a HD-TVI Camera TVP-6101 started to move continuously when you move the joystick left or right.

Firmware version 1.1.0

Date of release: 4/2/2022

New features and enhancements

- The firmware contains an extra submenu (DVR-By-IP Output list) in the Device Management menu for consulting and managing the IDs for the monitor outputs of the connected recorders.

Contacting support

For help installing, operating, maintaining, and troubleshooting this product, refer to this document and any other documentation provided. If you still have questions, contact us during business hours (Monday through Friday, excluding holidays).
